been reduced to 6 per cent, showing that the iste scare concerning a possible panic in Europe has completely subsided. The banks have gained heavily in their reserves, and business has hand-somely improved in all directions. Breadstuffs have been active at considerable advance, owing partly no doubt to the block in causi navigation, and the same remark applies to provisions. The trade in dry goods has not been active, but this market has improved in tone by the easing up of the money market, more prompt payments from retailer to job ber, and the general return of confidence. Cotton shows a further advance for the week of about 1 cents per pound, while there has been a decrease in the receipts and an increase in the exports compared with the corresponding week of 1872. The total receipts for the week reached 123.879 bales against 133,386 bales last week, 124,060 the previous week and 128,114 bales three weeks since. The total receipts since the 1st of September have been 979,985 bales against 1,141,436 bales for the corresponding period of 1872, showing a decrease this year of 161,451 bales. The exports for the week were 67,748 bales, an increase of 12,430 bales over the corresponding week of last year. The stock on hand amounts to 404,581 bales, being 1,879 bales less than last year. The money market has tended to greater ease during the week, not so much in call loans to brokers, who have generally paid 6 to 7 per cent, but in consequence of the greater activity in stock speculations, have had to pay exceptionally as high as 7 gold, or 1-32 bonus, as in commercial paper, which has been in good request at to to 12 for the best quality, and running up to 18 for that which is not strictly first-class. United States bonds have been in demand, both here and in Lon don, at better prices. In State bonds there has been very little movement, the financial management of the Southern States, whose bonds are most pressed for sale, not being of a character which warrants the confidence of investors. Railway mortgages have been more active at improving prices for those which are of unquestioned soundness. Gold has been influenced by the Spanish question and by the operations of speculators, the range for the week having been 110 and 108). The railway share speculation has been active, and seems likely to continue so. The prices of the leading shares have been advanced during the week from 2 to 61 per cent, notwithstanding the disposition which has been manifested speculators to realize profits at every favorable turn in the market, and large amount of hypothecated stock that has been thrown upon the Street. With the growing ease in the money market, the almost certainty that our great finance Minister will empty the Treasury of what he calls his reserve of \$44,000,000 of legal tenders, and which is now some \$10,000,000 les than that amount, and the fact that some of our banks have already returned to the practice of certifying brokers' checks in advance of deposits, it will not be surprising if we see the share market go gradually higher. In addition to what are known as the Vanderbilt stocks there has been marked activity in North-Western, St. Paul

SATUNDAY, Nov. 29-P. M.

The week ended to-day has been wentful in finan

cial and business circles. The war cloud which

lowered darkly for a time has happily cleared away

The rate of discount at the Bank of England has

ern Union, 53; Wabash, 54; Rock Island, 54; St. Paul Common, 41; and Preferred, 54, &c. After the feverish and unsettled closing of the general stock market last night, a continuation of that condition of affairs was not unnaturally expected at the opening to-day. So the surprise was great when it transpired that the earliest prices were far in advance of those then current, the market starting off buoyant under a full head of steam. The most active dealing was in Central Lake Shore, Wabash, North-Western, Union Pacific, and Western Union Telegraph. The market continued strong until about noon, when it began to feel the force of the large sales to realize. These were of fully the magnitude of yesterday, and very arge lines were sold out at handsome profits. Under these sales and the late activity of money the general market closed at a concession from the highest prices of the day and a shade above the lowest. The following are the opening, highest

Wabash, and some of the other Western roads. The improvement for the week in North-West Common

has been 5 per cent; North-West Preferred, 64; West

owest, and closing prices of active stocks: Milwaukee ann St. Paul.

The settlement of the Spanish matters, as published in the morning papers, gave a weaker tone to gold at the start, and opening at 1081, against 1091 at the close last night, declined to 1081. Afterward, on Washington rumors that all was not well in regard to the Cuban matter, the price became strong and advanced to 1004, and closed firm, the business of the day having been only moderate in amount. On gold leans the rates were 3-64, 146, 7 gold and 7 currency per cent for carrying until Monday. The Assistant Treasurer redeemed \$167,000 in called 5-20s, making a weekly total of \$885,000. The total disbursaments of coin interest on the public debt for the week amounted to \$104,000, including \$35,000 to-day. The day's ousiness at the Gold Exchange Bank was as follows : Gold cleared, \$40,048,000; gold balances, \$1,784,805; currency balances, \$2,000,566. The quotations are as follows :

10:00. 1087 | 11:30. 1087 | 1:00. 109 | 2:30. 100 | 10:30, 10° 0; 12:30. 109 | 1:30. 109 | 3:00. 109 | 11:00. 1/082 | 12:30. 1093 | 2:00. 100 The day's business at the U. S. Sub-Treasury covered:
